**Community Meetings Scheduled for Final Phase of
MTA/RTA nMotion Strategic Plan Update**

WHAT: During the final phase of community outreach for the yearlong nMotion strategic planning process, Nashville MTA/RTA is asking for input on three future scenarios for the region's transit system at a series of community meetings. Each scenario presents different transit options for Davidson County and Middle Tennessee. At the meetings, attendees will have the chance to review the scenarios and provide input on which strategies the region should consider to improve its transit system. People also can take the survey online at nMotion2016.org/decide.

WHO: Representatives from Nashville MTA/RTA

About nMotion

The Nashville area is undergoing a dynamic transformation that has made it a much more attractive city for thousands of new residents. The Nashville Metropolitan Transit Authority (Nashville MTA) and the Regional Transportation Authority of Middle Tennessee (RTA) are hard at work to provide new and better transit options that ensure everyone can get where they need to in a cost-effective and timely manner. We hope to gather input from as many Nashville-area residents as possible to develop the best mass transit system possible. Visit our website at www.nmotion2016.org.
