

# Go More. Stop Less.

MTA Bus Rapid Transit lite

[nashvillemta.org](http://nashvillemta.org) | (615) 862-5950

REVISED MAY 2015

# What's different about BRT lite?

Nashville MTA's Bus Rapid Transit (BRT) lite service is designed to move bus riders along the city's busiest corridors faster than buses on the local routes. This service offers more frequent service, fewer stops, and a greener attitude.

## » MORE GREEN «

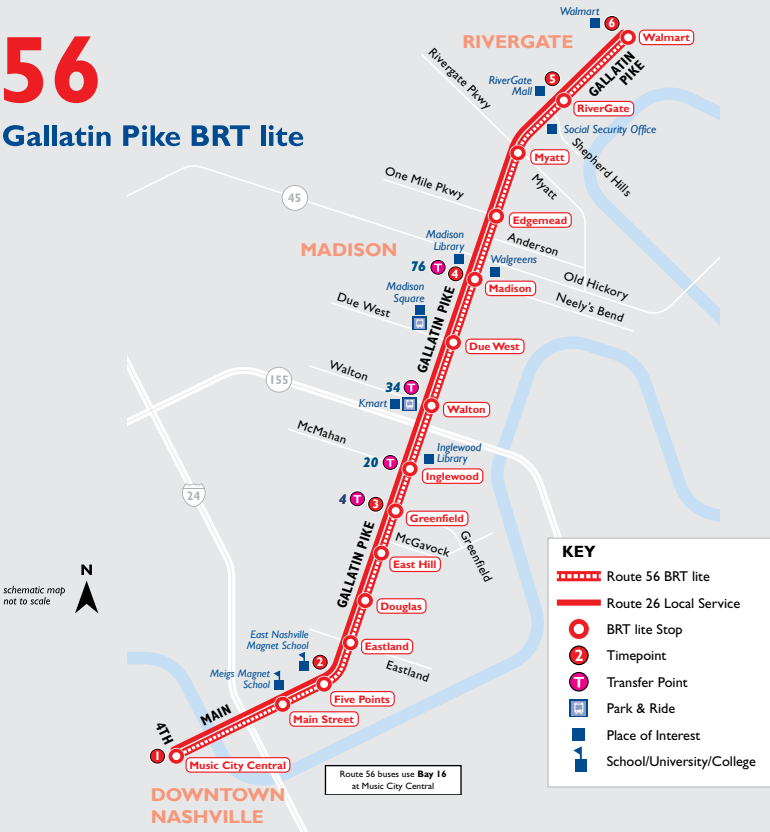

Most BRT lite routes use MTA's 60-foot hybrid buses. These buses provide more passenger room, more seating, and a positive environmental impact.

## » GREEN LIGHT EXTENDERS «

Some buses include green light extenders that lengthen green light intervals along the route to help them move through traffic more effectively.

# Where do I purchase tickets and what is the cost?

You can pay your fare on BRT lite buses the same way you do on other buses. MTA passes may be purchased at Music City Central (400 Charlotte Ave.), online at NashvilleMTA.org, by mail to 430 Myatt Drive, Nashville, TN 37115, or by phone at (615) 862-5950 using a major credit card. You may use any MTA prepaid multi-ride fare media, pay \$1.70 each way, or use an All-Day Pass for unlimited rides on a particular day.

## » CUSTOMER AMENITIES «

Customers are protected from the elements by uniquely designed covered shelters which include:

- » Electronic signs at all stops. The signs provide next bus information.
- » An alert button that passengers may use to activate a flashing light at the top of the kiosk to alert bus drivers of waiting customers.
- » Every BRT lite kiosk features a large map which shows the stops on that particular route.

# Where do BRT lite buses stop?

BRT lite buses stop every three-quarters of a mile at BRT lite shelters. Buses do not stop at local MTA bus stops (marked with blue-and-white signs).

## » LESS WAITING «

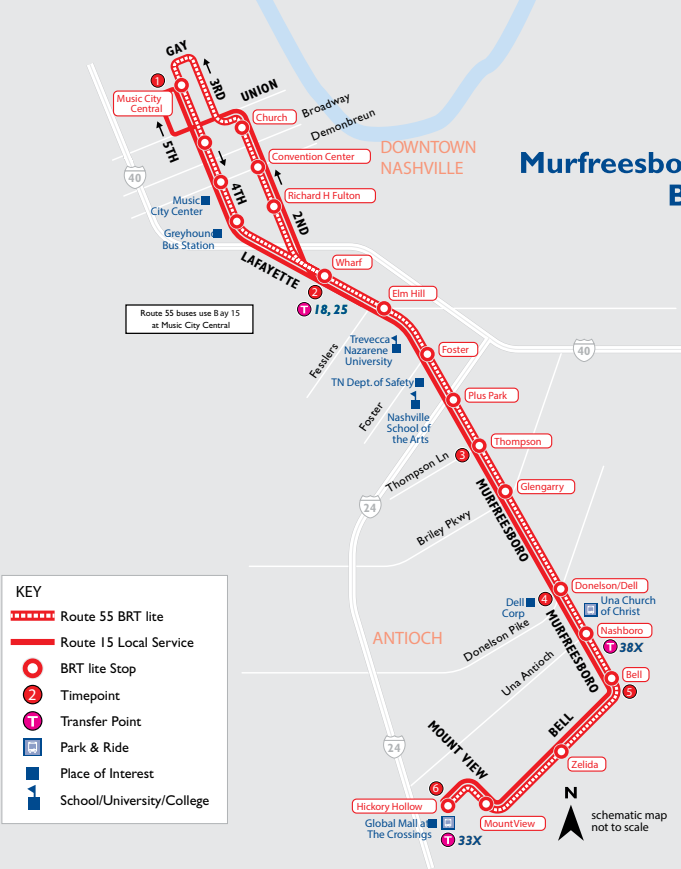

Because BRT lite buses make half as many stops as the local service, they arrive more frequently at BRT lite shelters and stops. In fact, no bus schedule is necessary for this service since buses arrive at regular intervals throughout the day.
