

Bike and Ride

Take your
bike for a
ride on MTA.

One goal of the MTA is to encourage commuting. With MTA's bike racks, we're making commuting easier for bike riders. So if steep hills, hard-to-negotiate bridges and tunnels have kept you off your bike, it's time to get back on. Every day you leave your car in the garage is a day we all breathe a little easier.

Your ride is here

430 Myatt Drive • Nashville, TN 37115

Bicycles provided by Cumberland Transit

Now your bike can go everywhere you go.

Whether your bike is your main method of transportation or your favorite way to exercise, riding around Nashville just got easier. That's because every bus in the Nashville MTA fleet is fitted with an easy-to-use bike rack. In just a few seconds, you can securely store your bike and ride in comfort. Each bike rack can accommodate two bikes and are available on a first-come, first-served basis. RTA buses operated by Gray Line of Tennessee also can accommodate

bikes in the luggage compartments of the bus. Motorized bikes are not allowed on MTA or RTA buses.

There are more than 40 routes in Middle Tennessee. Chances are you'll find one near your work or your favorite bike trail. **For a complete list of maps and schedules, visit our Web site at NashvilleMTA.org.**

A few seconds is all it takes.

Stowing your bike is easy and fast.

1. Squeeze metal handle in the center of the rack and pull down.
2. Place your front wheel in the tray.
3. Rotate the knobbed handle around to secure your front tire in the rack.
4. Release the knobbed handle to allow the arm to clamp down the front tire.
